## PROJECTS

### YOUTH COMPASS APPLICATION

MAY 2023

*Final Year Project 2022-2023*

- Developed Volunteer based application for youth for Seva to connect volunteers and management to perform volunteer activities.
- It is a hybrid an application that has a simplified interface for task management and analysis.
- The management allocates tasks to users through the app and can see an in-depth analysis of the progress made by each volunteer. The volunteers in turn can check their tasks for the day, mark tasks as completed, and submit feedback as well as proof of their efforts.
- Technology used include Flutter, Firebase, and Android Studio as IDE.
- My main Role is to make a trainer dashboard and volunteer dashboard,create task,assign task functionality with feedback page, and fetch data from the Firebase database.

### SWAP-STUDENT WELFARE APPLICATION PORTAL

Aug 2022

*Smart India Hackathon 2022*

- Developed an app "Monitoring safety in schools by the school, students, teachers, and parents, with the escalation of issues to District and state level" for the Ministry of Education, Government of India as a team of six members.
